Dr. Albert B. Sabin,
University of Cincinnati,
Cincinnati, Ohio.

Dear Dr. Sabin:

I have recently read a brief summary by Dr. H. E. Van Riper of the paper on the epidemiologic patterns of poliomyelitis which you presented at the International Conference last summer. I am very interested in the material which you presented, and am wondering whether copies of this paper are available so that it might be possible for you to send one to me.

Your cooperation in this matter would be greatly appreciated.

Yours sincerely,

C. G. Sheps, M.D.
Associate Professor of
Public Health Administration.
