Mr. Walter Kahoe  
Director, Medical Department  
J. B. Lippincott Company  
Philadelphia 5, Pennsylvania

Dear Mr. Kahoe:

Upon my return from Europe, I found a letter dated August 11, 1949, from Dr. Van Riper to you authorizing you to print 150 reprints of my paper on the Epidemiology of Poliomyelitis, which appeared in the Proceedings of the First International Conference. These reprints, however, have not as yet been received, and I would appreciate it very much if you could let me know when they may be expected.

Sincerely yours,

Albert B. Sabin, M.D.
