29 Elland Avenue and Bethesda
Cincinnati, Ohio

Dear Dr. Sabin:

Thank you for your recent letter. This will confirm that we have applied a portion of your travel allowance as deposit against the accommodation offered you aboard the INDEPENDENCE sailing August 26th for Naples.

You will be interested to know that the ANDREA DORIA has a sailing from Gibraltar on September 24th, to arrive in New York on September 30th. This ship, of course, is completely air-conditioned and we enclose a deck plan.

For your interest, we are also forwarding you deck plans of the VULCANIA and ROMA. However, these ships are not completely air-conditioned.

If you should prefer to fly from Rome to Paris or London and return to New York on either the UNITED STATES or QUEEN ELIZABETH, the entire air portion of your itinerary would amount to approximately $130.00. You will see from this, that your travel credit would be ample to cover your transportation.

Any itinerary in Spain would depend on the port of entry and the port of departure, as well as the length of time available. There could be several alternate itineraries, such as, Barcelona, Valencia, Granada, Seville; Gibraltar/Lisbon; or Madrid, Granada, Seville, Gibraltar/Lisbon; or Barcelona, Valencia, Granada, Madrid.
Please advise us as soon as possible which westbound sailing you will require and whether you wish to enter Spain at Madrid or Barcelona. We will then be happy to furnish you with complete suggestions for a short itinerary.

Awaiting the favor of your early reply, we are

Sincerely yours,

THOS. COOK & SON
