PERMIT TO IMPORT QUARANTINABLE MATERIAL

A copy of this permit should be sent to the shipper to be affixed to the outside of the container; if this is not possible, it should be presented to the Customs officer at the port of entry.

To Collector of Customs:

In accordance with section 71.156 of Foreign Quarantine Regulations permission is hereby granted Dr. Albert B. Sabin, The Children's Hospital Research Foundation, Cincinnati, Ohio, to import into any port under the control of the United States, chimpanzee blood samples from Africa, to be used for tests for poliomyelitis antibodies at The Children's Hospital Research Foundation.

This permit covers all importations of the above mentioned character which may be made during the period beginning March 14, 1955, and ending December 31, 1955.

It is directed, as a condition of this permit, that a record of importation be maintained at The Children's Hospital Research Foundation. Such record shall show specifically the kind of import, type of infection, and the use to be made thereof. This record is to be available to Service officers responsible for the enforcement of section 71.156 of the Foreign Quarantine Regulations.

Original to Air Express Internat'l Agency, Inc.
