Washington, D. C. 20005

Dear Doctor Abelson,

Enclosed herewith is a statement entitled: "Collaboration for Accelerating Progress in Medical Research: Planning, Priorities and Implementation" that I prepared at the request of Senator F. R. Harris, Chairman of the Senate Subcommittee on Government Research and presented at a hearing of the subcommittee on March 16, 1967.

I have had a number of inquiries about this statement and wonder whether it may not be of enough general interest to warrant publication as an "Article" in SCIENCE. Two copies of the original statement are enclosed with indications of the portions that might be deleted for publication.

Sincerely yours,

Albert B. Sabin, M. D.
