Dr. Albert B. Sabin  
Childrens Hospital  
Research Foundation  
Cincinnati, Ohio

Dear Dr. Sabin:

I appreciated very much your prompt answer to my letter. I am extremely sorry that I had not had any antibody test nor titers run on them prior to the positive findings in the stools. I do appreciate very much your letter and opinions on this condition.

If you are ever in this area, I would appreciate the opportunity to have you as our guest.

Yours very truly,

John B. O'Neal, III, M.D.
