Dr. A. B. Sabin
University of Cincinnati
Medical School
Cincinnati, Ohio

Dear Dr. Sabin:

I am enclosing copies of certain data which you might find interesting. A reply is not necessary; my professional geological work in oil exploration plus the time devoted to the present study on week-ends and nights requires most of my time.

The effects of time limitations are apparent in the presentations. The research is sound, for scientific techniques and methods are utilized in my discipline as often as any other field.

Yours very truly,
