Memorandum: To all Participants - Histoplasmosis Conference

Subject: Proceedings of the Histoplasmosis Conference which was held at Excelsior Springs, Missouri - November 1952

At long last the Proceedings of the Histoplasmosis Conference have been assembled and approved for publication and will appear as a Monograph of the Public Health Service about the end of December 1955 or early in January.

In spite of the delay in publication of these Proceedings it is the opinion of your Editorial Committee that they still contain material of value to anyone interested in this subject.

Due to expense of publication which has to be borne by the Public Health Service, the number of copies printed will be limited to one thousand. Each participant will, however, receive at least one copy.

Your Editorial Committee regrets the delay in publication of this document which has been occasioned by a combination of circumstances.
