7 April 1945

Lt. Colonel A. B. Sabin
Rockefeller Institute
Princeton, New Jersey

Dear Colonel Sabin:

Dr. Paul instructed me to send you a copy of the article "Transmission Experiments in Serum Jaundice and Infectious Hepatitis" by J. R. Paul, W. F. Havens, A. B. Sabin, and C. B. Philip, about which he no doubt spoke to you earlier this week. I enclose it and a copy of Maj. Havens' letter to Gen. Bayne-Jones herewith.

With kind regards,

Sincerely yours,

Anne D. Sheldon
Administrative Assistant to Dr. Paul

Brig. General S. Bayne-Jones  
Office of The Surgeon General  
1618 H Street, N.W.  
Washington 25, D.C.

Dear General Bayne-Jones:

Dr. John Paul has instructed me to submit the manuscript "Transmission Experiments in Serum Jaundice and Infectious Hepatitis" by J.R. Paul, W.P. Havens, Jr., A.B. Sabin and C.B. Philip (two copies of which are enclosed) for censorship and release.

This was the paper removed in galley form from the Journal of the American Medical Association. Approximately half of the material contained therein has already been censored and released.

It is entirely possible that Dr. Paul may wish some final change in title and authorship.

Yours sincerely,

/s/

Walter P. Havens, Jr.  
Major, Medical Corps
