September 3rd 1964.

Doctor Sabin,

Sir:

As you will see by the above heading, we are now beginning, what is, an undeniably urgent work. I feel sir, that I must write to tell you, because of your extremely kind, and authoritative replies to my letters during the past few years, and your special interest.

May I, with respect sir, ask, that in your own field of work on Poliomyelitis, are you able to tell me how I may learn more of a "Mr. O'Connor", who, I am told, did a great deal in Fund-Raising for "The Polio Research Fund" in the United States?

With my respects and my best wishes sir, and I will let you know, from time to time, of the Fund's progress;

I am sir,

Yours Respectfully,
