November 7, 1952

Dr. Clarence R. Cole  
Department of Veterinary Pathology  
The Ohio State University  
College of Veterinary Medicine  
Columbus 10, Ohio

Dear Dr. Cole:

In reply to your letter of October 31, I am sending you those of my reprints dealing with the pleuropneumonia organisms which are still available. I regret that there are no more reprints of the paper in the 1941 Bacteriological Reviews.

Enclosed you also find the galley proof of the chapter that I wrote on this group of organisms for the second edition of the book, "Bacterial and Mycotic Infections of Man," edited by Dubos. The second edition has recently gone on sale, and if you already have it, you will not need this galley. If you don't have the book, I would appreciate it if you would return this galley to me as soon as you have read it.

With all good wishes,

Sincerely yours,

Albert B. Sabin, M.D.
