January 8, 1962

Dr. Albert B. Sabin
Children’s Hospital
Research Foundation
Elland Ave., and Bethesda
Cincinnati 29, Ohio

Dear Albert:

In reference to your letter of January 4th, regarding the isolations by Barnett, I am writing to inform him of your inquiry as I think it is preferable that you get this information direct, rather than through me. In this way no confidence will be violated.

I enclose a copy of my letter to Barnett and if you do not hear from him shortly, you may wish to address your inquiry direct to him.

In regard to the rewriting of the chapter in the forthcoming volume of Diagnostic Procedures, I shall do whatever Ed Lemette desires in this respect, as you know he has been appointed editor for the next edition.

Yours sincerely,

R.M. Taylor, M.D.
