Dear Dr. Arnold:

Many thanks for your letter of September 17 and the photocopies that you sent me of my paper on "Cause and Control of Fatal, Infantile Diarrheal Diseases."

It would be of tremendous help to me to know whether or not acceptance of this paper for presentation to the Science Conference of the U. N. means that I will be attending the conference in Geneva in February 1963. I have, tentatively, set aside the period of February 4 to February 20 for this purpose but, in order to fit in other engagements, I must know as soon as possible whether or not and for how long I may be in Geneva during that period. An early reply would be greatly appreciated.

Sincerely yours,

Albert B. Sabin, M. D.
