Dr. Arthur B. Sabin  
Children's Hospital  
Cincinnati 29, Ohio

Dear Dr. Sabin:

The U.N. Secretariat has asked us to submit short papers whenever possible. I am forwarding your paper as is but the U.N. may ask that the text describe the tables which could then be deleted.

We plan to publish in full all U.S. papers in a book and have available for distribution to the delegates at the meeting and to others that were unable to attend the U.N. Conference on Science and Technology.

If any editorial changes are made, I'll let you know immediately.

Sincerely yours,

Richard C. Arnold, M.D.  
Scientific Secretary  
Science Conference Staff
