Prof. Dott. Domenico d'Antona
Istituto Sieroterapico e Vaccinogeno Toscano
Siena, Italy

Dear Dr. d'Antona:

I am sending you herewith a more detailed and revised memorandum entitled: "Preparation, Testing and Assay of Oral, Live Poliovirus Vaccine (Sabin)." I would appreciate it very much if you could let me know what the present status may be of licensure of the oral vaccine that you produced in Italy.

Also enclosed herewith is a reprint entitled: "L'eradication de la Poliomyelite."

With best wishes and kindest personal regards.

Sincerely yours,

Albert B. Sabin, M. D.

ABS: meh

Enclosure.
