January 7, 1964

Dr. Albert B. Sabin
The Children's Hospital Research Foundation
Elland Avenue and Bethesda
Cincinnati 29, Ohio

Dear Doctor Sabin:

As I mentioned to you in my letter of December 19, 1963, I referred your letter of December 13, 1963 to my superiors. In order to give them as much background as possible, Doctor Cabasso has been reviewing the literature and tabulating the results of the major studies that have been reported. In your letter of the 13th you refer to some corrected results on the New Haven study by Doctor Horstmann et al. We have been unable to locate this information in the literature and we shall appreciate it very much if you will furnish us with this reference.

Very truly yours,

I. S. Danielson, Ph.D.
Manager, Biological Production
