Dr. K. F. Meyer
The George Williams Hooper Foundation
University of California Medical Center
San Francisco 22, California

Dear K. F.:

Thank you very much for your letter of May 27th. I shall be glad to accept Professor Hallauer's invitation to serve as co-editor of the Archiv fur Virusforschung when this invitation reaches me. I hope that he will send me a list of the people who are currently serving on the editorial board of the journal so that I may be able to help in the selection of additional persons from the American continent.

I was very much interested in the last paragraph of your letter stating that Chumakov had written you that he had been able to secure the plague cultures. I wonder very much when that letter left Moscow because when I left Moscow on May 20th he did not as yet have these cultures. As I wrote you in my letter of May 27th I was assured that every attempt would be made to obtain all the cultures that you requested and that Chumakov would bring them to Geneva.

With kindest regards,

Sincerely yours,

Albert B. Sabin, M. D.
