Samuel Baron, M. D.
Senior Surgeon, U.S.P.H.S.
Department of Health, Education, and Welfare
Public Health Service
Bethesda 14, Maryland

Dear Doctor Baron:

I am returning your manuscript entitled "Rapid Induction and Reinforcement of Antibodies to Poliovirus." This manuscript has been reviewed in the office as well as by consultants outside of the office.

It is believed that the communication makes no significant contribution to a pretty crowded field. Furthermore, we have published a number of contributions on the general subject of poliomyelitis Vaccine and we had best reserve further space for significant new contributions.

Sincerely yours,

John H. Talbott, M. D.
