Dear Dr. Sabin:

I am preparing now a special issue of " Médecine et Hygiène " on the NEW PROGRESSES IN MEDICAL GENETICS and am wondering whether one of your colleagues would accept to write an article of 8 double space typed pages on this subject:

"DESOXYRIBONUCLEIC ACID AND VIRUSES"?

We would take in charge the French translation of this paper and send him the galley proofs. After publication we would give him 30 reprints as author's fee.

This article should reach us on September 1st, 1962, at the latest.

I greatly hope to receive a favourable answer, and remain,

Yours sincerely,

MEDECINE ET HYGIENE
