Dr. Albert Sabin  
Children's Hospital  
Cincinnati  
Ohio 45229

Dear Albert:

I should appreciate your evaluation of the enclosed paper which has been submitted to the JOURNAL for publication. The principal question, of course, over and above the adequacy of the data and the presentation of them, is whether there is sufficient new information to justify publication.

It was good to have the opportunity to see you in Tokyo.

Sincerely yours,

Waldo E. Nelson, M.D.
