Dear Dr. Sabin:

May we please have your assistance in reviewing this manuscript

The course of infection with attenuated polioviruses (Lederle-Cox strains),
by Bauer et al.

Please prepare in triplicate on the enclosed blank sheets an
unsigned criticism for transmission to the author. Your comments should
evaluate a) the originality and significance of the work, b) the
adequacy of the experimental design and techniques, and c) the relevance
of the discussion and the soundness of the conclusions. Detailed and
specific suggestions referring to the text of the manuscript or to other
pertinent literature are particularly helpful.

Please do not write on the manuscript or make any editorial
recommendations in the critique that is to be sent to the author.

Give your confidential opinion of the paper and its suitability
for publication in the Journal in a separate covering letter to me.

Please return the manuscript by Jan. 31, 1964 at the latest.

Your help will be greatly appreciated.

Sincerely yours,

Arnold S. Relman, M. D.
