Dear Doctor Sabin:

We are glad to have your opinion concerning salaries for Doctor Dodd and associates in the Ekiri project. You have probably received a copy of our letter to Doctor Weech in which we advised him that the matter would be presented to the Tropical Diseases Study Section and to the National Advisory Health Council for special consideration.

We certainly trust that favorable action will be taken by both groups. Certainly it is true that the circumstances surrounding this particular type of research project constitute sufficient justification for re-opening the whole matter with the National Advisory Health Council.

Sincerely yours,

Ernest M. Allen
