Dr. Albert B. Sabin
Children's Hospital Research Foundation
Cincinnati, Ohio

Dear Doctor Sabin:

At the meeting of the Tropical Diseases Study Section at the National Institute of Health on September 25, the thought was expressed that the next meeting of the group would probably be held sometime during the sessions of the American Society of Tropical Medicine at Miami, Florida, November 4 to 7.

At the present time, the number of pending applications for grants-in-aid does not warrant calling a meeting of the Study Section at Miami between the above-mentioned dates. As an alternative, November 25 has been set as a tentative date for convening the next meeting of the group. You will be further advised concerning the time and place of this meeting.

With cordial regards,

Sincerely,

W. H. Wright
Executive Secretary
Tropical Diseases Study Section
