MEMORANDUM

To: Members of the Tropical Medicine Study Section  
From: J. M. Ellis, Ph. D., Executive Secretary  
Subject: Minutes of Study Section Meeting

Enclosed is a copy of the minutes of the meeting of the Tropical Medicine Study Section on May 2, 1950. If there are errors, it is requested that these be called to the attention of the Executive Secretary in order that corrections may be made.

Study Section books left at the meeting will be mailed under separate cover.

Doctor Price, Chief of the Division of Research Grants and Fellowships, has asked me to serve as Executive Secretary of the recently organized Morphology and Genetics Study Section, beginning July 1. On account of the very large number of projects assigned to this section, it will not be possible for me to continue as secretary of the Tropical Medicine Study Section. Mr. Francis L. Schnell, former secretary of both the Malaria and Tropical Diseases Study Sections, will be assigned as Executive Secretary of the Tropical Medicine Study Section, beginning July 1.
