January 5, 1978

Dr. Neil Armstrong
Room 799
Rhodes Hall
University of Cincinnati

Dear Dr. Armstrong:

Would you be kind enough to grant me a short interview? I am a graduating senior at U.C., majoring in psychology. Presently I am enrolled in a class on Lunar Astronomy and I have chosen to write my term paper on the psychological effects experienced by the astronauts during and after a lunar landing.

Having such a unique and valuable resource as yourself, right here on campus, I couldn't overlook the opportunity of asking for your help.

If it is inconvenient for you to talk with me, perhaps you would recommend some good reference material. Enclosed is a stamped self-addressed envelope.

I will be most appreciative of any help you can offer me.

Sincerely,

Noreen Wessling
