In reference to your letter from President Bennis of U.C. of 5-18-75, suggesting the use of city-owned property by Patricia A. Rennick for her sculpturing project, I should advise that the proposal was made earlier through the Department of Urban Development.

Two sites were considered and rejected by us for use - the Court St. Firehouse because of existing and non-transferable use; the CG&E Building at Fourth & Plum Sts. because of Building Department requests to vacate. There are no others that meet the requirements of time, space and location.

Mr. Kull, of Urban Development, has so advised Ms. Rennick.
