The poster was surface cleaned along the margins and verso with a vulcanized rubber sponge and surface cleaned locally with vinyl eraser block. Tape carriers were removed by softening the tape adhesive with a 7% laponite poultice. Tape adhesive was reduced with poultices of methyl cellulose. Tears were repaired along edges with Tengujo kozo tissue and Zen Shofu wheat starch paste. Losses were filled with a combination of Usu mino kozo tissue and a med-thick mulberry tissue and wheat starch paste.
