Dear Dr. Caceres,

Thank you for the invitation to participate in a special invited presentation at the Association for the Advancement of Medical Instrumentation (AAMI) 1975 National Meeting. This presentation is co-authored by Neil A. Armstrong, Henry Heimlich, M.D., Edward A. Patrick, M.D., Ph.D., and George Rieveschl, Ph.D., Sc.D.

Please see the appended page with final title and authors in alphabetical order. There is no senior author.

We will be discussing the details of the presentation including who will present the paper. Our current thinking is that all four co-authors will be at the presentation.

Sincerely,

Edward A. Patrick, M.D., Ph.D.
