

San Quentin, California

August 3, 1930

My dear Harry:

Prepare for your annual surpris party from the Coast; I did not receive, or mislaid the June issue of the Magazine so I wish you would put one in an envelöpe and start it in my direction.

Your welcome letter of last October 22 came to hand in due time and I was pleased to hear from you; did not reply becausethere was nothing of importance to be gone into and I knew you could manage to keep busy without any useless chatter from this end. At that time you reported things booming in an organization way and I sincerely trust that you are still able to make a similar statement.

Kind regards to you and yours; remember me to enquiring friends.

Fraternally,
