Neuropathology Laboratory

January 9th, 1939

Dr. Albert B. Sabin
426 East 58th Street
New York City

Dear Doctor Sabin:

Would you be kind enough to send me one of your reprints on the work that you did on the virus in the case of Dr. Brebner.

I am very much interested in this case and would appreciate a reprint if you still have one available.

Yours sincerely,

Lewis D. Stevenson, M.D.
Professor of Neuropathology.
