

P. ROBINSON, M. D.

36 Jabotinsky st

Jerusalem August 2 1970

Dear Dr.Sabin,

You may remember that some years ago I sent you a copy of the Paediatric Manual for South East Asia. The book has now been selected for obligatory teaching in medical schools in India, and a new edition in English and Hindi is being prepared. I was ask^{ed} to act as consulting editor. The author of the chapter on Polio, Dr. D. B. Jelliffe, advised reprinting of his paper of the former (2d) edition. I am very unsatisfied with his immunization information. I wonder if may ask you to prepare a note on this to replace the part (red lines) of his chapter. If you would I would also like your permission to mention your name ("with a note by A. Sabin", or something to that effect); this will add prestige to the book.

With kindest regards

Sincerely, yours PR Robinson
