Dr. Nevin S. Scrimshaw
University of Rochester
School of Medicine
260 Crittenden Blvd.
Rochester 7, New York

Dear Dr. Scrimshaw:

Your very kind letter of July 28 arrived while I was away in Denmark and Sweden. I was indeed sorry to learn that we missed seeing each other during the Pediatric Congress. I was delighted to hear that you are now well set-up in Rochester and that you are continuing your studies of toxic complications of pregnancy in Panama. I hope very much you will send me a reprint when the first part of your study is published. I shall look forward to seeing you either in Cincinnati or Rochester, whichever may occur first.

With all good wishes and kind regards,

Sincerely yours,

Albert B. Sabin, M.D.
