1978

Dear Albert:

I have nominated Leon Schmidt for this year's Le Prince medal which as you know is given each 3rd year to a ranking malarialogist by the Am. Soc. Trop. Med & Hyg.

What Leon did for the WWII, and beyond, ^{efforts} in malaria chemotherapy is phenomenal and I know I don't need to remind you about it. If he had contributed to only 2 important drugs (chloroquine and primaquine) he would deserve the medal.

Albert, if you approve of the nomination, and I think you do, please write a supporting letter to ^{Dr.} ~~Wm~~ Trager, Rockefeller Univ. 66th York Ave., New York, N.Y. 10021

all the Best

Yours,

Bob Coatney
