Dear Dr. Sabin

By the time this letter arrives you'll be returning home after your trip to Israel and Italy. As I seat and type these words and overlook the Guanabara Bay, I imagine that your eyes are right now overlooking the Judean Hills or the Walls of the Old City of Jerusalem. Lucky you.

The material on your friend Janho is highly impressive. As soon as David Nasser writes his article I shall forward a copy to you.

Adolpho is back to work with full steam. It is useless to tell him to rest or to calm down. I guess that he made a point to himself: better not to live than without being the Adolpho Bloch that everybody knows, respects and loves.

Your adopted grandchildren are great. Sonia hopes to get back to work in the theatre, television or come what may.

Love to Heloisa, very best wishes, yours
