My dear brother Adolpho -

Congratulations on the 70th anniversary of your arrival in Brazil, on your 84th birthday, and on the 40th Anniversary of MANCHETE.

The 40th anniversary number of MANCHETE is a magnificent record of world events during the past 40 years and of the growth and development of life in Brazil, to which you have contributed so much. I thank you for including me - and for sending me the special issue of MANCHETE and for the card from Anna and yourself which Heloisa and I greatly appreciated. Many thanks also for the beautiful envelopes with my photo in the left upper corner.

Unfortunately since my return from Italy on Oct 22, where I received more prize money that I again turned over to the Weizmann Institute, I developed a sudden increase in the severity of my neurological illness which has not improved until now and has practically immobilized me. I have also recently been informed by "Americans for Medical Progress" that on May 17, '93 I will receive their prize of \$100,000 at a banquet in New York - which I will also turn over to the Weizmann Institute for Solar Energy Research.

Love from Heloisa and me to Anna and yourself - Albert
