Bethesda, Maryland 20004

Dear Al,

I was distressed to learn from the Post this morning that you have developed a spinal cord syndrome but I note that you are experiencing improvement for which fact you and your friends are grateful.

Aware of your having come to Washington I had intended to be in touch but I only too often walk that road of good intentions. Somehow, even when in the best of health, it seems harder to accomplish as much as formerly.

My own activities since finishing a ten year post-retirement stint as the International Representative of the American College of Surgeons--and continuing the past 2 years to serve as a Consultant--have been related to the nuclear war problem. The enclosed reprint tells a bit of my odyssey in that field.

When you feel that a Cincinnati review is indicated let me know for I'd be happy to visit you. Meantime do get well in a hurry.

Cordially,

  
Joseph P. Evans, M.D.
