Dear Dr. Sabin:

Attached is an abstract which I have prepared of the progress report submitted by you for the period ending December 31, 1941.

May we have an immediate reply from you as to whether this is in proper shape to present to the medical advisory committees at their forthcoming meeting?

Please feel free to make any alterations or corrections in this, but return it at your earliest convenience.

Yours very truly,

Don W. Gudakunst, M.D.
Medical Director
