Dr. Don W. Gudakunst
The National Foundation for Infantile Paralysis
120 Broadway
New York, N. Y.

Dear Doctor Gudakunst:

I was away in Georgia and regret the delay in answering your letter of December 10th. I should like to modify the title of our proposed program of study as follows:

"To continue the study of the natural history of poliomyelitis infection in experimental animals and in human beings as well as in certain non-human hosts which may serve as a reservoir of the virus in nature."

The exact name of the institution as it is to be carried on your various reports and publications should be as follows:

"The Children's Hospital Research Foundation and the University of Cincinnati College of Medicine."

Sincerely yours,

Albert B. Sabin, M.D.
