As you know, the Greater St. Louis Chapter of the National ALS Foundation is dedicated to discovering the cause and developing the cure of ALS, still commonly referred to as Lou Gehrig's disease. We are confident, based on the tremendous progress being made in both basic neurological and ALS specialized research, that we will find the answers we are seeking in the foreseeable future.

Thank you again for your donation and most important of all,

Thank you for caring,

*Joe Tangaro*
