Dear Dr. and Mrs. Monteiro,

I have had very little if any rest since my return from Europe a few days ago, and I must leave again tomorrow morning for a new series of engagements at home and abroad. I cannot go off however, without telling you both how very much Heloisa and I appreciated all the kindness that you showed us during our visit to Singapore. I must tell you how very pleasantly surprised I was by the dynamism and beauty that we found in Singapore and especially by the remarkable manifestations of public works and concern for the public welfare by the government of Singapore.

I hope very much that we shall see you both again in the very near future.

In the meantime, many thanks and affectionate regards from Heloisa and me.

Sincerely,

Albert B. Sabin, M. D.
