Dear Albert:

While in Washington last week I had occasion to see Col. Tigertt who was good enough to show me the manuscript of Paper #4 of the series on the "Japanese B encephalitis vaccination in Okayama." It was his impression that this whole business was now practically finished and that he would send you this manuscript in a week.

He is very anxious to have your criticism and will appreciate it if you could look these papers over when you receive them, and I am joining him in this hope.

Yours sincerely,

JRP/mac
