11th August, 1959.

Dear Doctor Sabin,

I have just heard that it is likely that the M.R.C.Meeting to which you have been asked is to be on September 17th so I think it would be best if we arranged to meet the previous day, on Wednesday the 16th, in which case I shall come down from Scotland on Tuesday. If I am able to catch a plane and reach London on Tuesday evening I will ring your hotel that evening and make arrangements for the following morning, otherwise I suggest I call you on Wednesday morning and we can then make the final arrangements for your visit to Sefton Park which we are all looking forward to.

I thought it might help if we arranged for a car to meet you at London Airport on Tuesday to take you to your hotel in London to save time going through the London Airport Terminal Station. Unfortunately I can't be there myself but if you will look out for a car I will leave instructions for the driver to meet your flight number BEA.265.

I hope you have a very good trip and look forward very much to seeing you.

Yours sincerely,

J. A. Dudgeon
