

THE ROCKEFELLER INSTITUTE FOR MEDICAL RESEARCH

66TH STREET AND YORK AVENUE  
NEW YORK 21, N. Y.

February 7, 1951

Dr. Albert B. Sabin  
Children's Hospital Research Foundation  
Elland Avenue and Bethesda  
Cincinnati 29, Ohio

Dear Albert:

Enclosed you will find a copy of the protocol of the test with your sera; it includes the ones you sent me on January 23rd, as well as repeats on previously tested sera. I thought that in order to study serial sera it would be best to have them all tested at the same time.

In general the titers of the repeats are one dilution lower than in the prior test of which you have a copy. But I believe it shows the same general pattern.

With best wishes from Dr. Olitsky and myself,

Sincerely yours,

*Jordi*

Jordi Casals
