Dear Doctor Sabin:

I have checked the file on Dr. Arnold H. Fieldsteel and find that he should be applying for renewal of his fellowship for the coming year. His original request was for a period of three years, and the various members of the Committee authorized the fellowship for one year with the privilege of renewal based upon estimates of his proven ability which should come from you as his supervisor. Will you be kind enough to write us a summary of your opinion of Dr. Fieldsteel, and we will submit it promptly to the new Committee with recommendation that his fellowship be continued for another year as of October 1, 1951.

In the meantime I will have copies of the summary of his original application prepared for the new Committee's consideration.

Sincerely yours,

Catherine Worthingham  
Director of Professional Education
