Dr. Albert Sabin
Children's Hospital Research Foundation
Elland Avenue and Bethesda
Cincinnati, Ohio

Dear Dr. Sabin:

Enclosed you will find two reprints of Dr. Aycock's most recent published papers, and a copy of the manuscript "The Epidemiology of Poliomyelitis". This last paper is going to be published in a Swiss medical journal, *Archiv fur Virusforschung*, as one of a series of papers presented as a tribute to Prof. Richard Doerr on the occasion of his 80th birthday.

Dr. Aycock has not been too well lately and is going into the hospital for further surgery. He asked me to send these papers on to you.

Sincerely yours,

Marcia Spiegel

(Mrs.) Marcia Spiegel
Secretary
