1201 East California Street
Pasadena 4, California

Dear Dr. Koepfli:

Dr. Schmidt has just informed me that you are now fully recovered and back on the job. I was also delighted to learn from him that you were about to prepare approximately 100 grams of the compound we have come to call isoplasmocid. Personally, I am delighted that you are doing it and hope that you will send us as much of it as you may be able to spare for further work on experimental poliomyelitis both in monkeys and in mice.

With all good wishes,

Sincerely yours,

Albert B. Sabin, M.D.
