Dr. Masami Kitaoka
National Institute of Health
Shiba Shirokane-Daimachi,
Minato-Ku, Tokyo, Japan

Dear Dr. Kitaoka:

The possibility of your returning to Japan from the International Poliomyelitis Congress in Rome by way of the U.S.A. prompts me to extend to you this invitation to visit our laboratories in Cincinnati for the purpose of exchanging information on the subjects of Japanese B encephalitis, poliomyelitis, and dengue.

Sincerely yours,

Albert B. Sabin, M.D.
Professor of Research Pediatrics
University of Cincinnati
College of Medicine
