Dr. A.B. Sabin,
Department of Paediatrics,
The Children's Hospital Research Foundation,
Elland Avenue and Bethesda,
Cincinnati 29, Ohio,
U.S.A.

Dear Dr. Sabin,

Thank you for your letter of the 28th July. I am delighted to know that you are making your strains available to us and my colleague and I look forward to the joint investigation.

I am only extremely sorry that I shall miss you during your visit to Greenford, which you mention will be between the 14th and 19th September; at that time I shall be attending a conference on international standardisation in Jerusalem. I notice from your letter that you are leaving the States on the 20th August and it occurs to me that if your first stop is London, there might perhaps be an opportunity for us to meet before I depart on the 4th September.

I am discussing the future work with Dr. Dudgeon and should you visit us in my absence, he will put me in the picture on my return.

With kind regards,
Yours sincerely,

.....
J. Ungar
