Dr. Bernard P. Sagik
The Upjohn Company
Kalamazoo, Michigan

Dear Dr. Sagik:

Someone in your laboratory made a mistake and returned the wrong shipping box. It is being sent back to you today and I would appreciate it very much if you could personally see that the black box that you took with you is returned as soon as possible.

I greatly enjoyed your visit to our laboratory and am looking forward to testing the B virus preparations on which you are working. If the results should warrant it I hope that we may publish them jointly.

With best wishes and kindest regards.

Sincerely yours,

Albert B. Sabin, M. D.
