Dear Sir:

In about two or three weeks after taking the polio sugar pill I developed Rheumatoid Arthritis. I understand that these polio virus are alive and live in the Colon of the body. I believe my system has developed an Allergy because of the polio virus.

What I would like to know is there any effective medications, antibiotics & etc., developed to fight these polio virus, or germs, and help my body get them out of my large intestines.

Enclosed is a self-addressed stamped envelope any information you send will be appreciated.

What I want to know is how I can get these polio virus, or germs, out of my body.

If there is any cost for this information Please let me know.

Very truly yours,
[REDACTED]
